

Macbook Pro

Description missing

The image is a collage of screenshots illustrating file sharing and caption handling across different platforms.

- Mac OS X (Top Left):** Two 'File Info' windows for 'white movie from icloud caption missing.MOV' and 'white movie with caption.mov'. The first window shows 'Caption added 8:56pm' is missing. The second window shows it is present.
- Mac OS X (Top Center):** A 'Hex Compare' tool showing binary differences between the two files, highlighting the missing caption data in the first file.
- Mac OS X (Bottom Left):** Two 'iCloud Photos' sharing settings windows. The left one is titled 'iCloud downloaded' and the right one is titled 'Shared from iphone using AirDrop'. Both show the caption is missing.
- iPhone (Bottom Center):** An iPhone screen showing a video player with the caption 'Caption visible' overlaid. The video info card also shows the caption was added at 8:56pm.
- Mac OS X (Bottom Right):** A 'test-comment' folder in Finder containing various files and folders, with a note 'File on Mac with & without caption' overlaid.
